Bits and Pieces about July

Dog days are considered to be between 3 July and 11 August when the hot sultry weather of summer usually starts.

So named after the rising of the brightest star of the night sky, Sirius. Sirius, Greek for glowing/scorching, is nicknamed the Dog Star because it is in the constellation Canis Major, Greater Dog.

Early next year in the evening sky you should be able to find Sirius if you can find Orion!

Greek and Roman astrology connected with heat, drought, sudden thunderstorms, lethargy, fever, mad dogs, and bad luck.

Spring lambs born in late winter or early spring are usually sold before 1 July.

Fence Month July is the traditional period known as fence month – the closed season for deer in England.
