

Trees

trees are the longest-living organisms on Earth

a large broadleaved tree needs to drink 50 litres an hour on a hot summer afternoon

the oldest trees in the world are 4,600-year-old bristlecone pines in California

16 million trees disappeared in one night on 16 October 1987

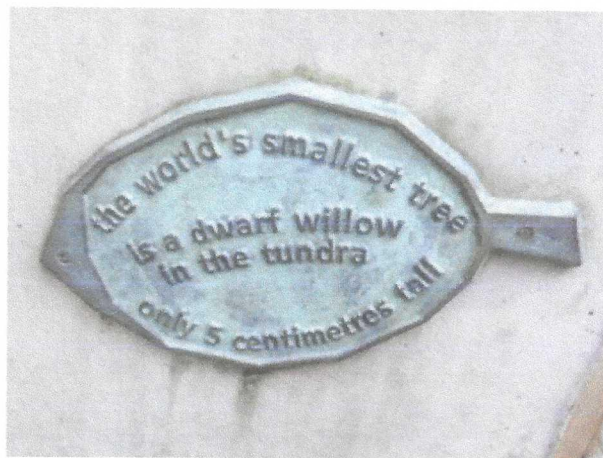

Trees

August

Some tree facts on the brass plates near the treetop walkway in Kew Gardens.

the death of one 70-year-old tree would return over 3 tonnes of carbon to the atmosphere

the world's smallest tree is a dwarf willow in the tundra only 5 centimetres tall

there are more than 7 million people in London and almost 7 million trees
