

Trees

Trees are budding, breaking into leaf while some don't seem to be moving at all

Starting in Dr Jack's

Hawthorne

Hazel

Privet

Poplar

Sycamores in the woodland and on its park edge by the cricket covers

In April

In March

On the eastern edge of the playing field alongside the footpath

Mountain Ash

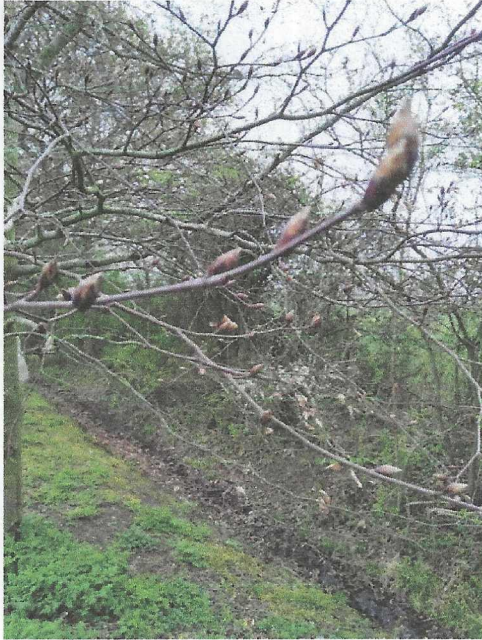

Willow

Blackthorn

Trees

Still on eastern side

Of the trio of **Beeches** the one on the right was the first to burst its buds last year

On the top field, the earliest **Oak** to go into leaf

On the bank, 2 cherries and one crab apple are in bloom

One of the **Horse Chestnuts** – looks as if it won't be long before it's in blossom!
