

Grasses

Haymaking in the flower meadow in early September

Hay cut and drying out on 4 September

After two days in the sun dried hay is turned into rows

Baler gathering rows of dried hay into bales tied with binder twine – no plastic for Farmer Haynes!

Grasses

Tractor to lift the bales

**Loading on to transport which took 7 bales in 2 loads.
All done till next year!**

“I could’ve done that!” says the Risinghurst Tractor
